The GREEN Expo

The Green Expo

CIRCULAR ECONOMY = PROFITABLE SOLUTIONS

THE GREEN EXPO® is Latin America's premier event for cutting-edge, sustainable solutions and technologies in an ever-increasing number of markets.

As society becomes more aware of the serious and negative impact on growth and economic development, environmental solutions are more important than ever. The Stern Report estimates that the consequences of not taking immediate action against the risks of climate change would amount to the loss of at least 5 % of annual global GDP, now and forever. If one takes into account a greater diversity of risks and impacts, the estimated damages could reach 20% of GDP or even higher.

The taking of prompt and energetic measures is clearly justified and is of immediate concern as investments made in the next 10 to 20 years will have a profound effect on the climate and on our economic and social activities.

The concept of a circular economy is a system of resource utilization in which the reduction, reuse and recycling of elements is priority.

This concept offers an attractive and viable alternative that many companies and organizations around the world are beginning to explore. With this in mind, **THE GREEN EXPO®** continues to unite industries interested in economically sustainable development through a Circular Economy with Zero Waste, extending the current framework of knowledge and business exchange.

Present all your solutions, technology and products that benefit more industries and be part of a Circular Economy

THE GREEN EXPO® is the most important event in Mexico and Latin America for industries interested in Profitable Solutions within a Sustainable Circular Economy.

**MORE AND MORE COMPANIES AND INDUSTRIES ARE JOINING THIS TRANSITION,
SEEKING TO INVEST IN PROCESSES, TECHNOLOGY, MACHINERY AND
SUSTAINABLE SOLUTIONS!**

EXHIBITOR PROFILE

**IF YOUR COMPANY PROVIDES SOLUTIONS, PRODUCTS AND NEW
SUSTAINABLE TECHNOLOGY IN:**

- Energy saving
 - Biofuels
 - Biodiesel
 - Biogas
 - Biomass
 - Biotechnology
 - Related to the environment
 - Certifiers
 - Cogeneration
 - Air compressors
 - Sustainable construction
 - Noise and insulation control
 - Acoustics
 - Geothermal energy
 - Photovoltaic energy
 - Garbage recycling, compaction and crushing equipment
 - Integral waste management
 - Industrials
 - Methanogens
 - Monitoring, analysis and measurement
 - Water treatment plants
 - CDM projects
 - Air purification
 - Soil remediation
 - Remediation and maintenance
 - Drainage
 - Transformers and electrical substations
- ...among many others

Participate as an **EXHIBITOR**
at **THE GREEN EXPO® 2019**
and guarantee sustainable
business for even more
industries.

XXVII CONIECO CONGRESS. The International Environmental Congress brings together Mexico's most influential members of the national and international environmental community, providing the forum to address the country's pressing issues.

FURTHERMORE,

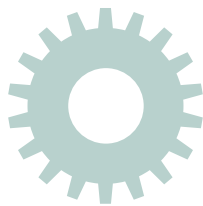

An international exhibition that presents innovative solutions and treatments for the water sector, integrating the most advanced technology for the water industry.

Intersolar Mexico serves as the industry's go-to source for invaluable technology trends and premier B2B contacts in the promising Mexican solar market.

**THE NEED FOR SUSTAINABILITY IS GROWING. SHOWCASE YOUR SUSTAINABLE
SOLUTIONS TO SUCCEED IN THE CIRCULAR ECONOMY!**
